

INFUSION BENCHMARK DATA POINTS

| | |
|--|--|
| Center profiles | Hours per breast patient by size |
| Diagnosis mix | Total encounters per colorectal patient overall |
| Number of billers | Encounters per colorectal patient by size |
| Patients served per biller | Total hours per colorectal patient overall |
| Number of NPPs | Hours per colorectal patient by size |
| Patients served per NPP | Total encounters per GI patient overall |
| Number of financial counselors | Encounters per GI patient by size |
| Patients served per financial counselor | Total hours per GI patient overall |
| Number of nutritionists | Hours per GI patient by size |
| Patients served per nutritionist | Total encounters per leuk/lymph patient overall |
| Number of registrars | Encounters per leuk/lymph patient by size |
| Cases per registrar | Total hours per leuk/lymph patient overall |
| Number of data managers | Hours per leuk/lymph patient by size |
| Trials per data manager | Total encounters per lung patient overall |
| Number of social worker | Encounters per lung patient by size |
| Patients served per social worker | Total hours per lung patient overall |
| Number of navigators | Hours per lung patient by size |
| Patients served per navigator | Drug spend for top 10 cost drugs overall |
| Total DOS per patient overall | Drug spend for top 10 cost drugs for breast |
| Total DOS per patient by size | Drug spend for top 10 cost drugs for colorectal |
| Initial infusions per patient overall | Drug spend for top 10 cost drugs for leuk/lymph |
| Initial infusions per patient by size | Drug spend for top 10 cost drugs for lung |
| Total patients per RN overall | Drug spend for top 10 cost drugs for non-onc |
| Total patients per RN by size | Frequency of administration for top 10 cost drugs overall |
| Chairs per RN overall | Frequency of administration for top 10 cost drugs for breast |
| Chairs per RN by size | Frequency of administration for top 10 cost drugs for colorectal |
| Total initials per pharmacy staff | Frequency of administration for top 10 cost drugs for leuk/lymph |
| Initials per pharmacy staff by size | Frequency of administration for top 10 cost drugs for lung |
| Total heme/onc patients per heme/onc overall | Frequency of administration for top 10 cost drugs for non-onc |
| Heme/onc patients per heme/onc by size | Revenue for top 10 cost drugs overall |
| Total encounters per heme/onc overall | Revenue for top 10 cost drugs for breast |
| Encounters per heme/onc by size | Revenue for top 10 cost drugs for colorectal |
| Total RNs per heme/onc overall | Revenue for top 10 cost drugs for leuk/lymph |
| RNs per heme/onc by size | Revenue for top 10 cost drugs for lung |
| Total hours infusing per encounter overall | Revenue for top 10 cost drugs for non-onc |
| Hours infusing per encounter by size | Total CTs per patient |
| Total hours infusing per chair overall | Revenue for CTs per patient |
| Hours infusing per chair by size | Total other imaging per patient |
| Total chair occupancy rate overall | Revenue for other imaging per patient |
| Chair occupancy rate by size | Total MRIs per patient |
| Total hours infusing per RN overall | Revenue for MRIs per patient |
| Hours infusing per RN by size | Total nuc med per patient |
| Total encounters per benign heme patient overall | Revenue for nuc med per patient |
| Encounters per benign heme patient by size | Total PET scans per patient |
| Total hours per benign heme patient overall | Revenue for PET scans per patient |
| Hours per benign heme patient by size | Total ultrasounds per patient |
| Total encounters per breast patient overall | Revenue for ultrasounds per patient |
| Encounters per breast patient by size | Total xrays per patient |
| Total hours per breast patient overall | Revenue for xrays per patient |
